CAPABILITIES STATEMENT

Established in 2014, Live Electric Inc. is a diverse commercial and industrial electrical contracting company. We offer a full range of high, medium, and low voltage electrical contracting services. Additionally, we provide services for emergency and routine maintenance. Quality control and safety protocols are a top priority at Live Electric. Our company values efficiency, discipline, and attention to detail on all projects. We aim to approach all projects with the highest level of respectability and never to compromise our standards.

Our mission is to provide high-quality electrical services to our customers on time, within budget while exceeding expectations.

Bid Limit: \$2,500,000

DIFFERENTIATORS

Live Electric has helped a number of general contractors and project owners achieve great diversity and inclusion goals on both public and private projects. Since our inception, our success has been primarily due to our differentiators. Some things that separate us as a firm in the field (and in office) are:

- Southern Nevada's only WOSB/DBE certified, Union Electrical Contractor
- Bilingual staff (field and in office)
- Highly skilled journeymen and wiremen
- In demand diversity certifications
 - **8 and counting!**
- Experience in government & commercial projects

CORE COMPETENCIES

- New Construction
- Tenant Improvements
- Commercial Wiring
- Electrical Repair and Replacement
- Electrical Maintenance and Troubleshooting
- Electrical System Installations and Upgrades
- Transformers & Power Panels (New or Upgrade)
- Switchgear Services and Installation

DOOLITTLE COMMUNITY CENTER

"It was a pleasure working with LIVE Electric on MRDD Projects. Their attention to detail, can do attitude and collaboration allowed for an easy transition from a construction phase to an Owner Turnover. I look forward to another successful project with LIVE Electric in the near future."

- Omar Badilla, Sr. Project Manager,
TEAM Construction

allegiant stadium

LAS VEGAS STADIUM (ALLEGiant STADIUM)

BRAD GARRETT COMEDY CLUB

"Live Electric provided electrical and low voltage services on the Forum Project. In every instance, they exceeded our expectations for performance. Heather and her employees were always attentive and completed their scope of work professionally and timely. Live Electric performed equally well in exceeding PENTA's site safety requirements. They participated in our OSHA SCATS program, which proactively engages industry safety officials on the project site to foster a collaborative safety environment. In all, we PENTA will continue to look for opportunities to utilize Live Electric for future work. We recommend them without reservation."

- Glen Maxwell, Sr. Vice President - Preconstruction
PENTA Building Group

CAESARS FORUM CONVENTION CENTER

"Overall Live Electric has shown that they can work well coordinating with a team on a large complex project and have been a positive force in maintaining an on-time, safe, and high-quality project."

- Brian Schmidt, Sr. Project Manager
Martin-Harris Construction
