

From the President's Desk
Authored By: Heather Avila

2024 was an amazing year of growth and accomplishments for the Live Electric team and our partners! We safely and successfully completed 32 projects and have brought 6 more of our longer-term projects closer to completion. We had the honor of working with great General Contractors like McCarthy, Penta, SHF International, Mountain Vista Development Company, HPJV, KOR Building Group, Addison Construction and Development, and Blackford. We also had the pleasure of working as Prime Contractor for the City of Las Vegas, CCSD, and the Boring Company as well as working as a sub-tier subcontractor for our friends at Lakeland Electric, Conti Electric, G&G Electric, and YESCO.

I'm happy to report that our end users continue to provide positive feedback and gratitude for our ability to exceed their expectations. Some notable projects we worked on this year included F1 2024, Harry Reid Airport Baggage Handling System improvements, Las Vegas Convention Center Expansion, Carbone Speakeasy at the Aria, City of Henderson Justice Facility, along with many others that made an impact on our community's social and economic advancements.

Our big vision for 2025 as we enter into our 11th year, is to continue to deliver service excellence to the builders, owners, and end users we have the privilege of working for and to continue to provide the hard-working men and women in the electrical industry a safe, caring, and inclusive

workplace.

We will do this by investing in our people, our partnerships, and our community. By pouring into each other's development, we can help all our cups overflow. We are all stronger together and this is all made possible with our "village".

It truly takes a village to build a strong and healthy community and provide a stable foundation for the families that live and work here. We are grateful that we play an active role with our friends and partners with the IBEW 357, the National Electrical Contractor's Association (NECA), the Diverse Contractor's Council the Nevada Contractors Association, and the Women's Business Center. Our work with these organizations strengthens both our construction and diverse/small business community. In 2025 we will deepen our community engagement through strategic partnerships with our non-profit partners, mentors, and mentees, and increase our impact with pay-it-forward initiatives.

2025 is going to be a year for us all to thrive together!! We look forward to working with and for you in the coming year.

Let's Thrive in '25!
